Round One: The Taste Round

- Each team is asked to take ONE cupcake and alter it to a taste that is relevant to the theme.
- During this round, the teams must ONLY use what is in front of them and may not share with the teams around them. (Put different items on each table)

Round Two: The Decoration Challenge

- The 6 remaining teams will be asked to create THREE cupcakes that show the theme through decoration.
- The eliminated teams from Round ONE will be judges for this round.

- Three teams will be eliminated during this round.

Round Three: The Final Presentation Round

- The 3 remaining teams will be asked to create a SIX cupcake display (keep 3 tables reserved for this in the front of the room facing the audience)
- Teams must use the flavor they created in the first round for ONE of the cupcakes as well as the decorations they used during the second round for TWO of the cupcakes and the final THREE cupcakes may be new creations.
- Utensils may be used for this round
- During this round: The left hand of one team member must be tied to the right hand of the other team member so that they must work as one whole person.
